

Tim Straube | Curriculum Vitea

Sankt Stephansplatz 14 – 78462 – Konstanz

* 06.02.2002 • ☎ +49 0179 6997024 • ✉ tileone02@posteo.de

Education

Marie Curie Gymnasium

Abitur

Kirchzarten

2012 – 2020

HTWG

Bachelor of Electrical Engineering and Information Technology

Konstanz

October 2020 – Februar 2025

HTWG

Tutor for Ordinary Differential Equations, Fourier- and Laplace transforms

Konstanz

March 2024 – September 2024

Fraunhofer Institute for Solar Energy Systems

Internship

Freiburg im Breisgau

Summer semester 2023

Fraunhofer Institute for Solar Energy Systems

Scientific assistant

Freiburg im Breisgau

September 2023 – September 2024

HTWG

Bachelorthesis

Konstanz

July 2024 – November 2024

Projects

Quadcoptersystem, Bachelorthesis

Development of a quadcoptersystem from scratch, including a joystick interface, the power train and a custom flight controller. Experiments were performed in training pid-parameters as well as a control policy with deep reinforcement learning.

Solving battleship with AlphaZero, Project

Adaptation of an existing AlphaZero implementation to play battleship superhumanly.

Communication theory, Project

Implementation of a Coded-OFDM system in MATLAB.

Distributed systems, Project

Building a microcontroller network to exchange MQTT-based sensor values while at the same time hosting REST servers as user interfaces for parameter variation on each microcontroller.

Projects at Fraunhofer

Development of a desktop application for calculating current-voltage characteristics of photovoltaic modules from layout and topology data as well as calculation of optimal topologies and cell layouts followed by thermal simulations and factory planning with Tecnomatix.

Information technology

Languages

Assembler, C, Python, MATLAB, SimTalk, Javascript

Operating Systems

Linux, Windows, RTOS, Zephyr

Language

German

Mother tongue

English

C1, Fluent in realtime

Interests

Biking

All year round

Flight and transport simulations

Since childhood days
